Joe B. Reed's insurance companies have all adopted the policy of paying death claims arising from the war with Spain. For accident and life insurance either in lodges or straight life companies see Joe B. Reed.

### THE FUTURE PLANS OF WAR WITH SPAIN.

Commander Watson Goes to Spain and Thirty Thousand American Troops Go to Porto Rico Under Miles.

Washington, July 13.—The actual departure of Commander Watson's raiding squadron for the coast of Spain, which the naval authorities expect will occur about the end of the present week, indicates sufficiently the complete abandonment of any intention to besiege Havana in the next three or four months and confirms the impression that no extended military operations will be prosecuted in Cuba after the capitulation of Santiago.

The remarkable difficulties which are attended by the investment of Santiago, and the resulting tedious delays have served to convince the military and naval authorities that Havana cannot be attacked successfully with less than 100,000 men and the entire naval force in the Atlantic. The city, ordinarily one of the best fortified ports in the world, has been made much more impregnable in the last two months through the activity of General Blanco, who has surrounded it with several chains of strong intrenchments and fortifications, in addition to the new batteries he has mounted along the coast.

Without the strong vessels attached to the raiding squadron the navy would be powerless to render effective assistance to the army against Havana, and it is deemed impossible that land forces alone could secure the surrender of the city with less than several months' campaign, which would be out of the question before midwinter on account of the horrible climatic conditions.

Promptly upon the fall of Santiago, it is announced, the expedition to Porto Rico is to be undertaken, with General Miles in command of three divisions aggregating more than 30,000 men.

He will have the cooperation of Admiral Sampson's heavier ships in the assault on San Juan, and it is his intention to clear the entire island of Spanish troops with every energy at his command.

His force will include practically all the regular and volunteer troops now at Santiago, the Cubans and immunes being left to hold that province.

In addition to the fleet of 45 transports already secured to carry troops to Porto Rico, including the 30 that formed General Shafter's main expedition, the navy has consented to the temporary use of the cruisers, the St. Paul, the St. Louis, the Yale and the Harvard to carry regiments and a number of other vessels will be available for the service next week.

The medical corps of the army since the breaking out of yellow fever urge that the troops be taken out of the country as soon as possible. The surgeons declare that the horrors of a long continued siege will be incalculable, and their emphatic opinion is that it will be better to lose hundreds of men in an aggressive assault than to expose the entire army, and this country as well, to a devastating epidemic of yellow fever.

To Push on to Porto Rico.

Washington, July 13.—The Porto Rican expedition is to be pushed. Many of Sampson's vessels will accompany the expedition. The invasion of Havana province will speedily follow the fall of Porto Rico.

Santiago's Reported Fall.

Rome July 13.—The Tribune of this city publishes at Kingston, Jamaica dispatch received at 6:30 p.m. yesterday affirming that the city of Santiago has capitulated.

A SHOOTING SCRAPE CAUSES THREE DEATHS.

One Man Killed in the Fight and One Man and a Woman Die From the Effects of the Shock.

Little Rock, July 13.—A special from Van Buren, Ark., says news of a very remarkable coincidence at Sallisaw, I. T., a small station on the Kansas and Arkansas Valley railway, has reached here.

A bitter enmity existed between ex-City Marshal Joe Morris and William Allison. The trouble culminated yesterday afternoon when Morris shot Allison, killing him instantly.

John Sellers, a spectator to the tragedy, seeing Allison fall dead, threw up his hands, fell forward on his face and was dead from heart disease before medical attention could be summoned.

Mrs. Allison, the aged grandmother of the murdered man, was told of the tragedy and, partially arising from her chair, she fell forward on the floor and was dead before the family could carry her to her bed.

Hanging in Mississippi.

Mississippi City, July 13.—Harry Gibson, a white man, was hanged in the courthouse yard here for the murder of Mr. and Mrs. Parkhurst, an old couple living near Biloxi. After murdering the old people the house was set on fire and the bodies burned with the building.

Mrs. Place to Be Electrocutated.

New York, July 13.—Mrs. Martha M. Place, convicted of the murder of her stepdaughter, Ida Place, was sentenced to die in the electric chair at Sing Sing.

If Mrs. Place is executed she will have been the first woman put to death in this state in the electric chair.

Gilbert For Congress.

Danville, Ky., July 13.—The Democratic convention of the Eighth district nominated G. G. Gilbert of Shelbyville for congress over McCreary and Thompson.

### DEWEY IN POSSESSION OF GRANDE ISLAND.

The Raleigh and the Concord Capture the Garrison and a Great Quantity of Ammunition.

Copyrighted, 1908, by the Associated Press. Manila, July 9, via Hong Kong, July 13.—The insurgents have reported that the German gunboat Irene, in Subic bay, refused to permit them to attack the Spaniards on Grande island.

Dewey promptly dispatched the United States cruisers Raleigh and Concord to investigate the matter.

On entering Subic bay the Raleigh opened fire on the forts, and at the same time the Irene slipped her cable and steamed out by the other channel.

The result of the fire by the American warship was that the Spaniards, numbering 500 men, surrendered everything.

The Irene explained that she interfered "in the cause of humanity," and offered to hand over to the Americans the refugees she had on board, but Dewey declined to accept them.

GERMANY'S PLANS BLUFFED BY DEWEY.

Subic Bay Taken Charge of and Now Germany Has No Show For a Foothold.

New York, July 13.—Special copyrighted cable from Manila, July 10, to The Journal says:

Dewey on July 7 dispatched the Raleigh and Concord to take Grande Island, Subic Bay, and capture the garrison.

There was no response to the Raleigh's fire. A shell was sent through the commander's house. A white flag was instantly run up. The landing party demanded absolute surrender.

The Spanish colonel, Rio, realizing his hopeless position, made submission and gave up his sword.

Forty thousand rounds of ammunition and one Hotchkiss gun was captured. This victory gave the Americans control of Subic bay. Dewey's possession of Subic bay defeats Germany's supposed plans to interfere in the Philippines.

Madrid Hears From Manila.

Madrid, July 13.—An official dispatch from Manila says:

A German cruiser, which left Manila on July 5, brings a letter from the captain general saying that the situation there is unchanged.

The commander of the cruiser reports that the Americans expect 1000 reinforcements by July 15, when they will attack Manila from the north.

Two rebel chiefs have been shot. Advances from Luzon report a general rising in both provinces.

In the operations at Sierra Capiz 25 insurgents and 2 Spaniards were killed. An official dispatch from Havana says:

The Americans attempted to effect a landing at Bayabacoa, near Tanas. The garrisons of the forts forced them to retreat to the ships, which covered the landing and which fired 300 shells on the forts. One Spaniard was wounded. The Americans renewed the attack further away, but they were again repulsed.

An American transport is ashore at Punta Caney.

Aguinado Has a Squadron.

Madrid, July 13.—An official dispatch from Manila, Philippine islands, says Aguinado, the insurgent leader, is patrolling the coast with a squadron of merchantmen. The dispatch adds that two bands of insurgents at Cebu have been defeated and three insurgent leaders captured and shot. The dispatch says there is no news from other parts of the islands.

FIVE TIMES THE AMOUNT OF THE LOAN.

This Is the Estimate New York Banks Place on the Risk For the War Loan Bonds.

New York, July 13.—There has been an increased amount of eagerness recently to subscribe for the war loan bonds at the subtreasury as the time will expire at 2 p.m., today. This is 24 hours ahead of the closing time of the treasury, in Washington, so that the subscriptions will be sure to arrive there by mail in time to be considered.

A great number of large subscriptions by banks and other institutions have been forwarded so as to share in the allotment if it is not all taken up by the small subscriptions. The total subscriptions are estimated by bankers to exceed five times the amount of the loan, and of this fully \$500,000,000 has been subscribed in this city, including the offers of J. P. Morgan & Co. and the City National bank on behalf of syndicates to take \$100,000,000 at a premium. It is thought that fully one-half of the award will go to the subscribers in amounts of \$500 or less.

Grazing Cattle on Reservations.

San Francisco, July 13.—Statements having reached Washington that cattle-men are trespassing on the Sequoia national park in Tulare county in the withdrawal of the Fourth cavalry, the secretary of the interior has appointed W. B. Holey superintendent of the reservation and instructed him to appoint 20 deputies and see that cattle-men are kept outside the park limits.

The men have left for the park all fully armed, and serious trouble is feared. The southern ranges having been exhausted, cattle are now being driven both to the Sequoia and Yosemite reservations.

All the farmers have got plenty of watermelons to eat and sell.

Mr. D. E. Smith, will begin a singing school at Rocky Ridge July 15.

Our singing class met last Sunday evening. The leaders were Messrs T. M. Turner, J. D. Fuller, J. T. Parker and E. W. Thompson.

Lone Star.

THE POISON CUP.

There is a man Across the way, A handsome man, Is he to-day; But read his signs: "Imported wines, And choicest liquors" In array.

He has a boy, A pretty child, With bright blue eyes And manners mild, But, oh! how very Sad to think, He sees so many Stop to drink—

Not from the fountain Or the well; Not from the streamlet In the dell, Where thirsty man Or beast may sup; But poison from The shining cup!

A Cheering Sign.

One of the most cheering indications of the working of the prohibition law is the fact that labor leaders are manifesting a disposition to break away from saloon influence. The custom which has largely prevailed in our cities of having labor union headquarters in saloons, and which temperance reformers have naturally deplored, has proved to be one of the seeming evils which brings forth good. For, having experienced the damaging effects of such connection, the leaders are awakening to a "realizing sense" of the great stumbling block which the liquor traffic is to every effort for the improvement of the condition of the wage-worker.

New York walking delegates, recently interviewed by The Voice, express themselves willing to discuss remedies for the drink evil with a readiness which has hitherto been conspicuously lacking among labor agitators. While few of them, probably, would favor prohibition, still it is a great step forward to recognize, as they do, that the liquor problem is one that the industrial reformer, like the civic reformer, the financial reformer and every other kind of reformer, must meet and deal with. In applying restrictive measures they will learn that to "cripple" the evil is not enough, and will eventually come to see that total destruction is the only effective remedy. We believe that whenever the day comes—and it is coming—that the working man refuses to be politically led and financially bled by the rum power, it will throw light upon many a problem which now appears so difficult of solution.

### DOREMUS & BUTLER.

Law Offices.

1 and 2 Parker Building.

BRYAN TEXAS
